Audit Findings

Audit Narrative

Life Rebuilders Midwest Challenge is a Christian based organization that provides transitional housing for Men and Women in the Minneapolis Minnesota Metropolitan area. Genesis House 1 and Genesis House 2 is a halfway house that provides work release programming in a community confinement setting. Midwest Challenge successfully complied with a PREA Audit on May 5, 2015. This is the facility's second audit in a 3 year cycle. Prior to the on-site audit, I contacted the local police department and the local sexual violence center and received information pertaining to their response to any sexual assault that may occur at the facility. I also received electronic copies of the Pre-Audit Questionnaire, staffing plans, employee and resident handbooks, training curriculum, policies and procedures along with numerous documents relating to the upcoming audit. On April 26, 2018 I arrived at Midwest Challenge and met with the President/CEO and the PREA Coordinator. I interviewed the President and was then given a complete comprehensive tour of the facility which consists of two buildings. During the tour I observed large posters and pamphlets that provided PREA information to the residents. I also saw that all the bathroom areas of the facility were private. I also noted that the facility had cameras situated in areas that could be considered blind spots. I was able to review resident files. I then proceeded to interview all the staff members that were working at the time along with all the residents that were in-house and not out on work release. Later I interviewed residents randomly as they returned from the work release program. I also interviewed additional staff as they came on duty. In total, I interviewed 11 residents and 8 staff members and was assigned a private office to conduct these interviews. I concluded the on-site audit going over the standards with the PREA Coordinator and the Compliance Manager. I spent 7 hours on the on-site audit. I made some subsequent phone interviews with persons and organizations associated with the facility. I came away with the impression that all the staff members were highly experienced and committed to the Agencies zero tolerance policy. Midwest Challenge houses only male residents which are at the end of their court ordered sentence, are being released from prison and are eligible for work release programming. These residents are supervised by the Minnesota Department of Corrections. The facility is licensed and inspected by the Minnesota Department of Corrections and is obligated to be in compliance with Minnesota Chapter 2920, Rules for Adult Community Confinement Facilities. These rules enhance the facilities efforts toward compliance with the PREA Standards by providing guidelines for staffing ratios, employee background checks and disciplinary processes, residential programming and disciplinary processes along with numerous other rules that enhance the safety and security of the facility.

Facility Characteristics

Midwest Challenge is community confinement facility that is located in a residential area in South Minneapolis. Staff members are required to perform hourly status checks on all the residents. There is a Shift Supervisor on duty 24/7 and Program Directors and Managers supplement security coverage. On weekends the facility runs overlap shifts along with flex shifts. The facility consists of two 3 story houses that have been renovated to become halfway houses. Genesis House 1 consists of offices and residential housing. Genesis House 2 is adjacent to the other house with only a narrow driveway separating the 2 houses. Genesis House 1 first floor has a main office that is staffed 24/7 along with 2 other staff offices. This floor has a six person bedroom next to the main office and 1 private bathroom with a shower. There is a lobby area and a meeting room. The first floor also has a dining room and a kitchen that has 1 full time

cook. The second floor of this house has 1 one person bedroom, 2 two person bedrooms along with a private bathroom with shower and a commons area. The third floor of the building has 2 two person bedrooms and a private bathroom with shower. The basement of this building has a laundry room. In between the two houses there is a garage that residents may use as a recreation room. Genesis House 2 has a dining area, a meeting room and 1 three person bedroom on the first floor. The second floor has 2 one person bedrooms, 2 two person bedrooms and a private bathroom/shower. The basement of this house has a laundry room and a private bathroom. There were 23 residents house in the facility on the day of the on-site audit.

Midwest Challenge only does administrative investigations. All criminal investigations would be conducted by the Minneapolis Police Department http://www.ci.minneapolis.mn.us/police/about/investigations/police_about_sexcrimes A phone conversation with a supervisor from the Minneapolis Police Department's Criminal Investigations Unit assured that the department well trained investigators that would investigate any criminal incident or allegation that occurred at the facility. Forensic examinations would occur at Hennepin County Medical Center <https://www.hennepinhealthcare.org/support-services/violence-assault-and-abuse-resources/> The hospital has a "Sexual Assault Resource Service" that provides SANE forensic services to all victims of sexual abuse including those from this facility. A phone interview with the director of this service verified that they would provide such services for Midwest Challenge at no cost to the residents.

The work release program director performs screenings on all residents normally on the same day or within 24 hours of arrival of the resident. The screening tool is a comprehensive instrument that assesses vulnerability and aggressiveness. Each resident is assessed and screened again every 30 days or as needed as situations arise.
